NAME : DHARSHINI.B.S

REG.NO : 16MIS0449

COURSE TITLE : AMAZON WEB SERVICE

GUIDED BY : ETHNUS

UNIVERSITY

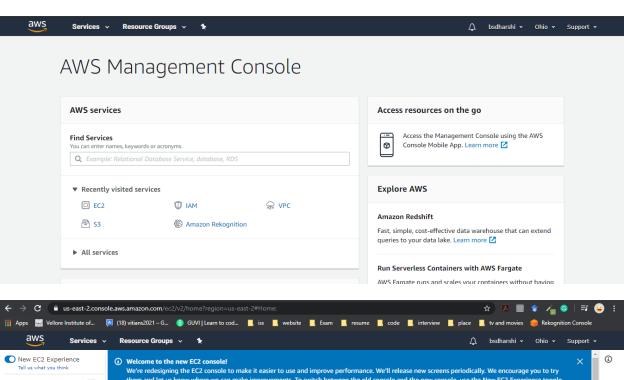

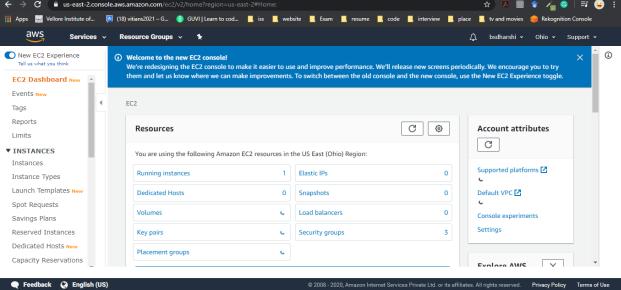

1) Demo class- AWS

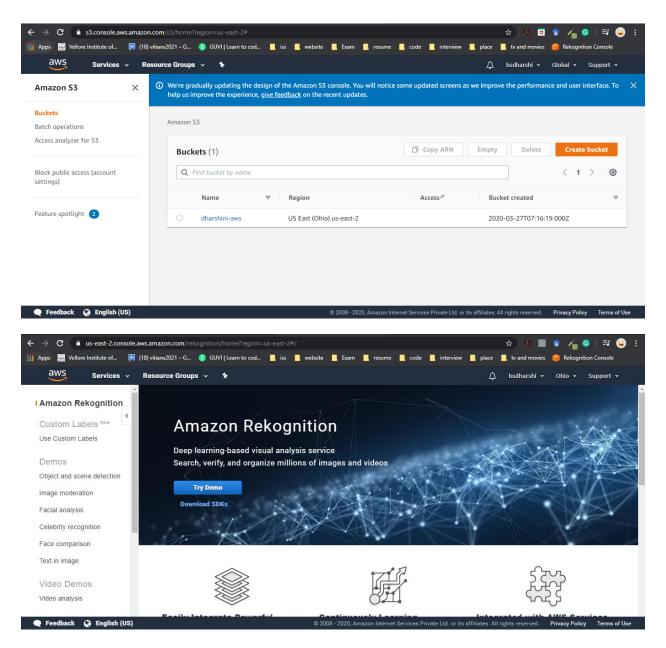

Root user Account owner that performs tasks requiring unrestricted access. Learn more IAM user User within an account that performs daily tasks. Learn more Root user email address bsdharshi@gmail.com Next Next

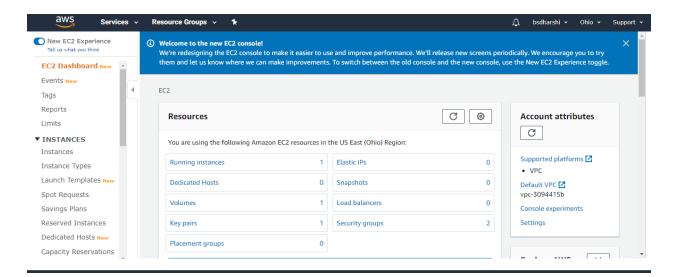

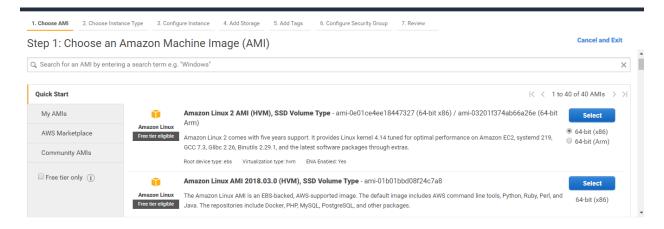

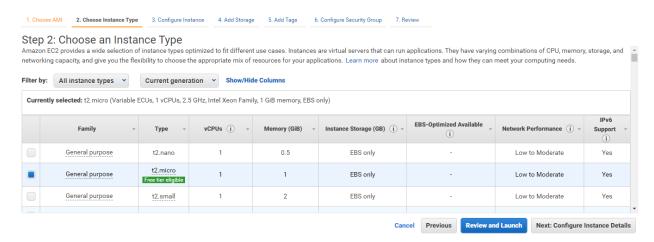

2) Master class Day -1 EC2

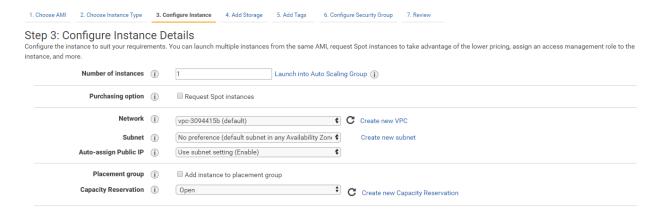

Step: 1- Select the operating System.

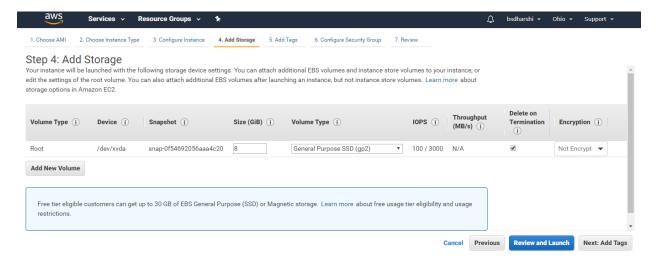

Step: 2 Select t2 micro.

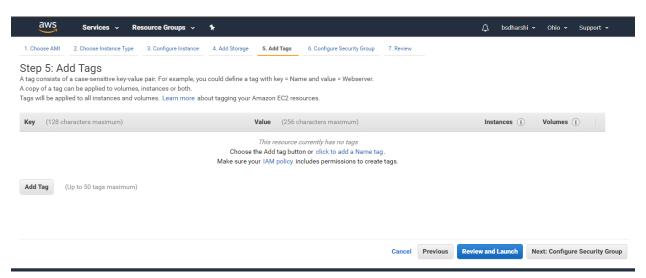

Step: 3

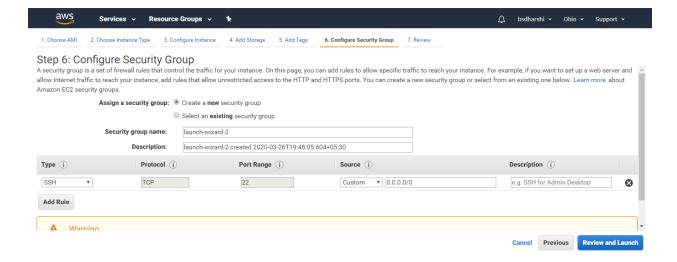

Step: 4 Add 8 GB storage.

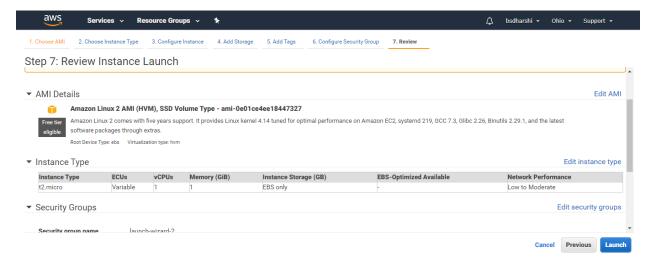

Step: 5

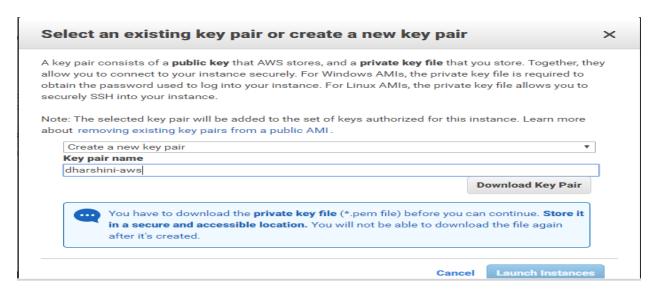

Step: 6 Security group.

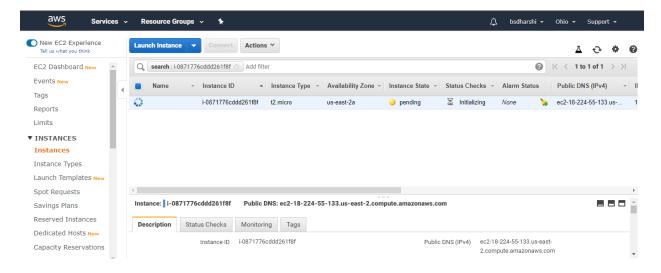

Step: 7 Launch the instance.

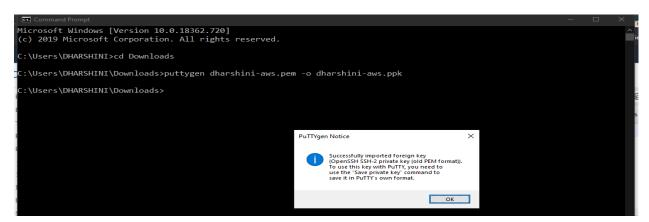

Step: 8 Enter the key pair name and download it. It will in .pem format.

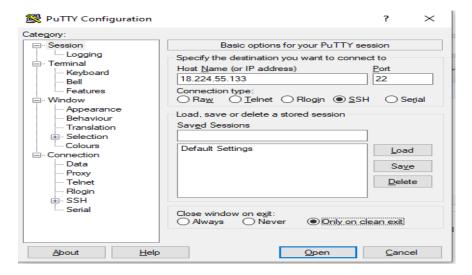

Step: 9 Instance created.

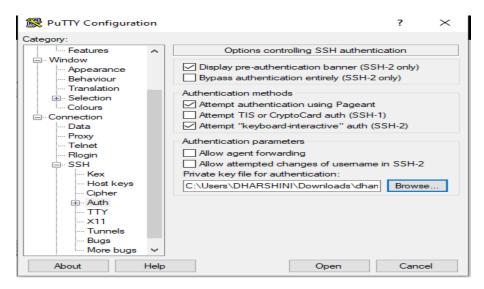

Step: 10 In command prompt convert the .pem file format to .ppk format. Since puTTY accept only .ppk

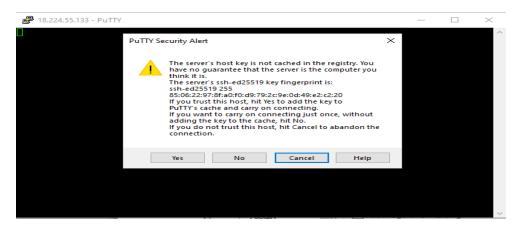

Step: 11 Paste the IP address and SSH – 22 Port.

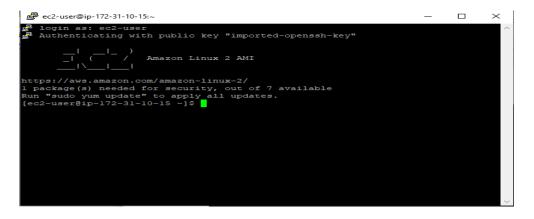

Step: 12 Paste the converted private key file.

Step: 13 puTTY command prompt.

Step: 14 Login using ec2-user name.

Step: 15 enter sudo yum install httpd command and press y.
